

Parachute For Ovarian cancer action!

FREQUENTLY ASKED QUESTIONS:

1. What sort of jump can I do?

There are 3 types of jump available:

1. A 'Tandem Skydive' from 10,000 feet attached to a professional instructor
2. An 'Accelerated Freefall' where you can experience the thrill of skydiving solo from up to 12,000 feet
3. A 'Static Line' jump, which is performed solo from up to 3,000 feet.

2. Where can I jump?

You can jump from any one of over twenty British Parachute Association approved airfields across the UK. Your information pack contains a handy map showing all available locations. No experience is necessary as all training is given.

3. How much will my jump cost?

The jump organisers request that you raise £395 minimum. Of this, you will be expected to pay around £70 deposit at the time of booking, approximately £185 for the jump on the day itself, and a further £140 post-dated sponsorship cheque to hand in on the day of the jump. Your information pack will advise you on how much your specific chosen jump will cost and when your payments will need to be made.

4. How much of the money I raise will go to Ovarian cancer action?

Anything you raise above the £70 deposit and c.£180 jump cost goes straight to Ovarian cancer action! Obviously, if you can afford to cover the costs of the jump yourself, even better, so that all sponsorship money will go straight to the charity.

5. What's the best way to raise sponsorship money?

Lots of our supporters find it very easy to set up a fundraising page on the Justgiving.com website. It's free to use, and really easy to set up. Just go to www.justgiving.com for more details. We can also provide paper sponsorship forms.

We would ask that if you are using some of the money you raise to pay for the jump itself, that you raise enough funds offline to cover this amount first (around £395). This is to make sure that you have enough accessible funds to cover your costs, as unfortunately the charity cannot cover the costs for fundraiser skydives.
